

# ISLAND SHIPBROKERS PTE LTD

## COMPANY PROFILE

Established in July 1995 and based in Singapore, Island Shipbrokers is one of the leading broking companies in the Asian region.

Our sphere of business covers spot chartering, time charters, contracts for oil and chemical tankers, as well as all forms of sale and purchase, and regular/bespoke research across major commercial shipping segments.

---

We have an extensive network of partner and joint venture companies that assist us in providing first class service to our customers.

The cornerstones of the company are professionalism and dedication to the shipping industry. We strive to add value to your business with our expertise and experience.

## DEPARTMENTS

### **Tankers**

Our highly experienced tanker chartering team focuses on spot and period business on all vessel sizes from MR to VLCC in the clean and dirty petroleum products and crude oil trades. Our global coverage permits a constant flow of accurate and up-to-the-minute market information. Our clients include the world's major ship owners, oil companies and traders.

---

### **Sale & Purchase**

The department has very close relationships with regional as well as international ship owners, operators and shipyards. There is complete synergy with the other departments in the company enabling us to offer a package often combining charters if required.

The department deals in all types of S & P including tankers, chemical, gas, bulk and container ships. Financial guidance can also be provided as we have developed sound relationships with the regional shipping lenders. The department has also been involved in numerous newbuilding transactions in Japan, China, and elsewhere in the Asian region.

---

### **Operations**

As the most crucial and time-sensitive department of a broking company, it is essential that the operations department is able to handle any eventuality and anticipate a difficulty before it arises. Managed by an experienced tanker captain, our Operations department efficiently covers all post fixture matters.

---

### **Research**

Our research function provides in-depth analysis of a wide spectrum of shipping segments on a subscription basis, including tankers (crude and product), dry bulk, containership and newbuilding; through a top-down understanding of macro developments and its corresponding implications on segment dynamics. On top of regular reviews/projection on the market outlook, we also provide bespoke research studies tailored according to individual specific investment needs.

Our research views are regularly covered by major media avenues such as IHS Fairplay 24/magazines, and Singapore's award-winning broadcast newshub, ChannelNews Asia.
